

BREATHE WHITE

1ST ANNUAL BREATHE WHITE FOR CYSTIC FIBROSIS RAISED OVER 35,000!

Over a hundred friends and family attended the 1st annual BREATHE White For CYSTIC FIBROSIS benefit held at the Raven and the Peach on December 6, 2014, for Stanley Zolek, a Holmdel boy with Cystic Fibrosis (CF). The event was the first local benefit the family held for CF, which raised awareness and generated over \$35,000 in donations for the much needed scientific research for the disease. The theme of the night was 'Breathe White', symbolizing clean lungs. Guests attended in their winter white cocktail attire and enjoyed live music, wine tastings, fabulous food and white martinis in a space filled with white trees, lights and snowflakes. Renaissance Pilates of Red Bank and Ashford & Grace Fine Jewelers were the two main sponsors for the event.

Cystic Fibrosis is a devastating disease that effects the lungs, pancreas and leads to life threatening lung infections. There is no cure. The Zolek's have been fighting CF and working very closely with the Cystic Fibrosis Foundation since Stanley's birth 11 years ago. Stanley is the poster child for the Foundation and has played a key role in the annual Great Strides event in NYC since he

was nine months old. To date, the Zolek family and their friends have raised over a half million dollars for this disease. The family is extremely thankful for the support they receive and they attribute their son's strong health to their family and friends support. For more information, visit www.iLoveStanleyNYC.com
